

Please do not limit what K-LOVE does for this community. I am personally served by uplifting music but also know I will get emergency information through this station.

If this station were to be displaced by LPFM we would lose a valuable asset in this genre as well as one of the few choices for non commercial radio.

I believe the service offered by K-LOVE to our community a remarkable alternative to the violence, anti-moral, and anti-ethical stations that predominate our airwaves.

Please do not displace K-LOVE, we depend on this for a means of communication with the world while not offending our sensibilities at every turn. Thank you for your consideration in this matter.
